Hangzhou Metro Line 5

Hangzhou, Zhejiang

Situation

Being as the provincial capital city of Zhejiang province, Hangzhou formally put a new metro line into practical use on Jun 24th, 2019. Hangzhou Metro Line 5 reaches a total of 50km with 40 stations by covering 7 urban areas, which be termed as the "Engine Line". After the rigorous process of selection, Zenit was chosen to be the winner to supply the lifting stations for satisfying the requirement of high efficient wastewater drainage.

Solution

Lifting station:
BlueBox E 400S
BlueBox 60
BlueBox 150

Pumps:
UNIQA

Benefits

Zenit's external lifting station series are equipped with the tanks of large capacity and assorted with the UNIQA high-efficiency series pumps. The whole sets of lifting station equipments were invested with moderate cost and low maintenance expense, which could completely fit the installation environment with small occupation and convenient setup.
