

Storm drainage and waste water in Athens

water solutions

STAVROS NIARCHOS FOUNDATION CULTURAL CENTER

Situation

Stavros Niarchos Foundation created a new signature building in the city of Athens. Our mission the Storm drainage and waste water pumps for the new cultural center. Additionally, more than 100pc of various ZENIT pumps were used during the construction, including 2 temporary BOX PRO units for the worksite sanitary waste water.

Solution

High efficiency and reliability were the major concerns for the permanent equipment.

- 6 x UNIQA ZUG OC 100B 22/4 AD 315
- 6 x DRP 1000/4/100T & FLX
- 2 x DGF 200/2/80 ATEX & FLX+ BOXPRO S80D
- 3 x DGN 300/2/80 ATEX & FLX

Benefits

Zenit's proven quality, competitive price and short delivery time is followed by distributor's excellent customer support and experienced maintenance service.
